EXPERIENCES

Schoolab - Freelance Innovation Consultant & Trainer

Paris (France), Aug 2018 - Present

Commissioned for several missions (Lean Factory, CPi Imagine and trainings) like:

- Helped an energy company to rethink its work organisation using design fiction methodology
- Improved and enhanced a medical chatbot and managed its testing through 200 reviewers
- Animated several trainings about design thinking, lean startup and business model
- Participated to several ideation sessions to help startups in their product creation
- Coached 4 teams of 7 students for the EDHEC Hackathon (one of them finalist) and 2 teams of 5 students for the EIT Health Challenge at La Sorbonne
- Reported feedbacks of a beta-test platform connecting landowners with real estate developers

Raise - Startup Program Manager

Paris (France), Jan 2019 - Apr 2019

Part of RaiseSherpas, a dotation fund aiming to be an acceleration for startups of more than 18 months:

- Analysed startups to give them advices and assessed if they could benefit of the loan of honor
- Managed relations with companies and startups in order to create a bridge between them
- Unified the ecosystem to facilitate the communication between entrepreneurs and companies

Clickup - Founder

Lausanne (Switzerland) / Paris (France), July 2017 - July 2018

Proposed a micro-finance tool powered by advertising to crowdfunding platforms and associations, whose goal was to allow users to raise money for projects by watching an advertising video.

- Secured 4 partnerships with platforms for the beta test, managed prospection of clients and landed 5 clients ready to advertise through our tool
- Worked closely on the UX/UI with our developer, discussed which technology to use, and managed the product's development in an agile way until the tool was ready to use
- Worked on the business plan and the financial forecasts, and looked at potential subventions and external investment opportunities
- Pitched the business at several events and contests, won the Morpheus Cup in the Media & Entertainment category (€1'000 prize) and took part of the Plug & Start Accelerator

Accenture - Open Innovation Analyst (intern)

Paris (France), Feb - July 2017

- Analysed clients' pains with the various account teams to choose the right technology to help them solve their issues in an innovative way
- Evaluated the technology, funding and business model of more than 40 startups to secure potential partnerships with Accenture
- Raised the visibility of the Accenture Innovation architecture within the company throughout communications, social media and events
- Classified more than 150 companies in the startups database to improve the efficiency and speed up the process

Li Lian International - Junior Project Manager

San Po Kong (Hong Kong), Sept - Dec 2016

EDUCATION

University of Paris-Saclay - Student-Entrepreneur Degree (D2E)
